1 Retraction

The Editors-in-Chief have retracted this article [1] because it significantly overlaps with an article by different authors [2] that was simultaneously under consideration at a different journal. The article also shows evidence of authorship manipulation and peer review manipulation. In addition, the identity of the third author could not be verified: the University of Mosul has confirmed that Ahmed Zama has not been affiliated with their institution. The authors have not responded to any correspondence regarding this retraction.

Author details

¹College of Applied Mathematics, Shanxi University of Finance and Economics, Taiyuan, China. ²Center for Finance and Accounting Research, University of International Business and Economics, Beijing, China. ³Department of Computer Engineering, College of Engineering, University of Mosul, Mosul, Iraq.

Publisher's Note
